HANDLES FOR SLIDINGS

 Made in Italy<sup>®</sup>

Life in evolution

Universale grazie allo spessore ridotto e ad un'ampia tolleranza sulle lavorazioni

Universal thanks to reduced thickness and wide tolerance on the machining

Universel grâce à l'épaisseur réduite et une grande tolérance de l'usinage

Universal gracias al espesor reducido y una gran tolerancia sobre los mecanizados

Universal graças ao tamanho pequeno e alta tolerância para mecanização

Sicura mediante i suoi dispositivi antieffrazione ed anti falsa-manovra indipendenti

Safe thanks to its independent anti-theft and anti-mishandling devices

Sécurisé avec ses dispositifs antieffraction et anti-fausse manœuvre indépendants

Seguro por dispositivos anti-robo y anti-falsa maniobra que son independientes

Segurança por dispositivos anti-roubo e anti-manobra falsa que são independentes

**OLE'**

Versatile grazie ai numerosi modelli ed una vasta gamma di accessori che permettono di soddisfare qualsiasi necessità

Versatile thanks to the many models and a wide range of accessories to meet every need

Polyvalents grâce aux nombreux modèles et une large gamme d'accessoires pour répondre à tous les besoins

Versátil grâce aux nombreux modèles et une large gamme d'accessoires pour répondre à tous les besoins

Versátil graças aos vários modelos e uma ampla gama de acessórios para atender cada necessidade.

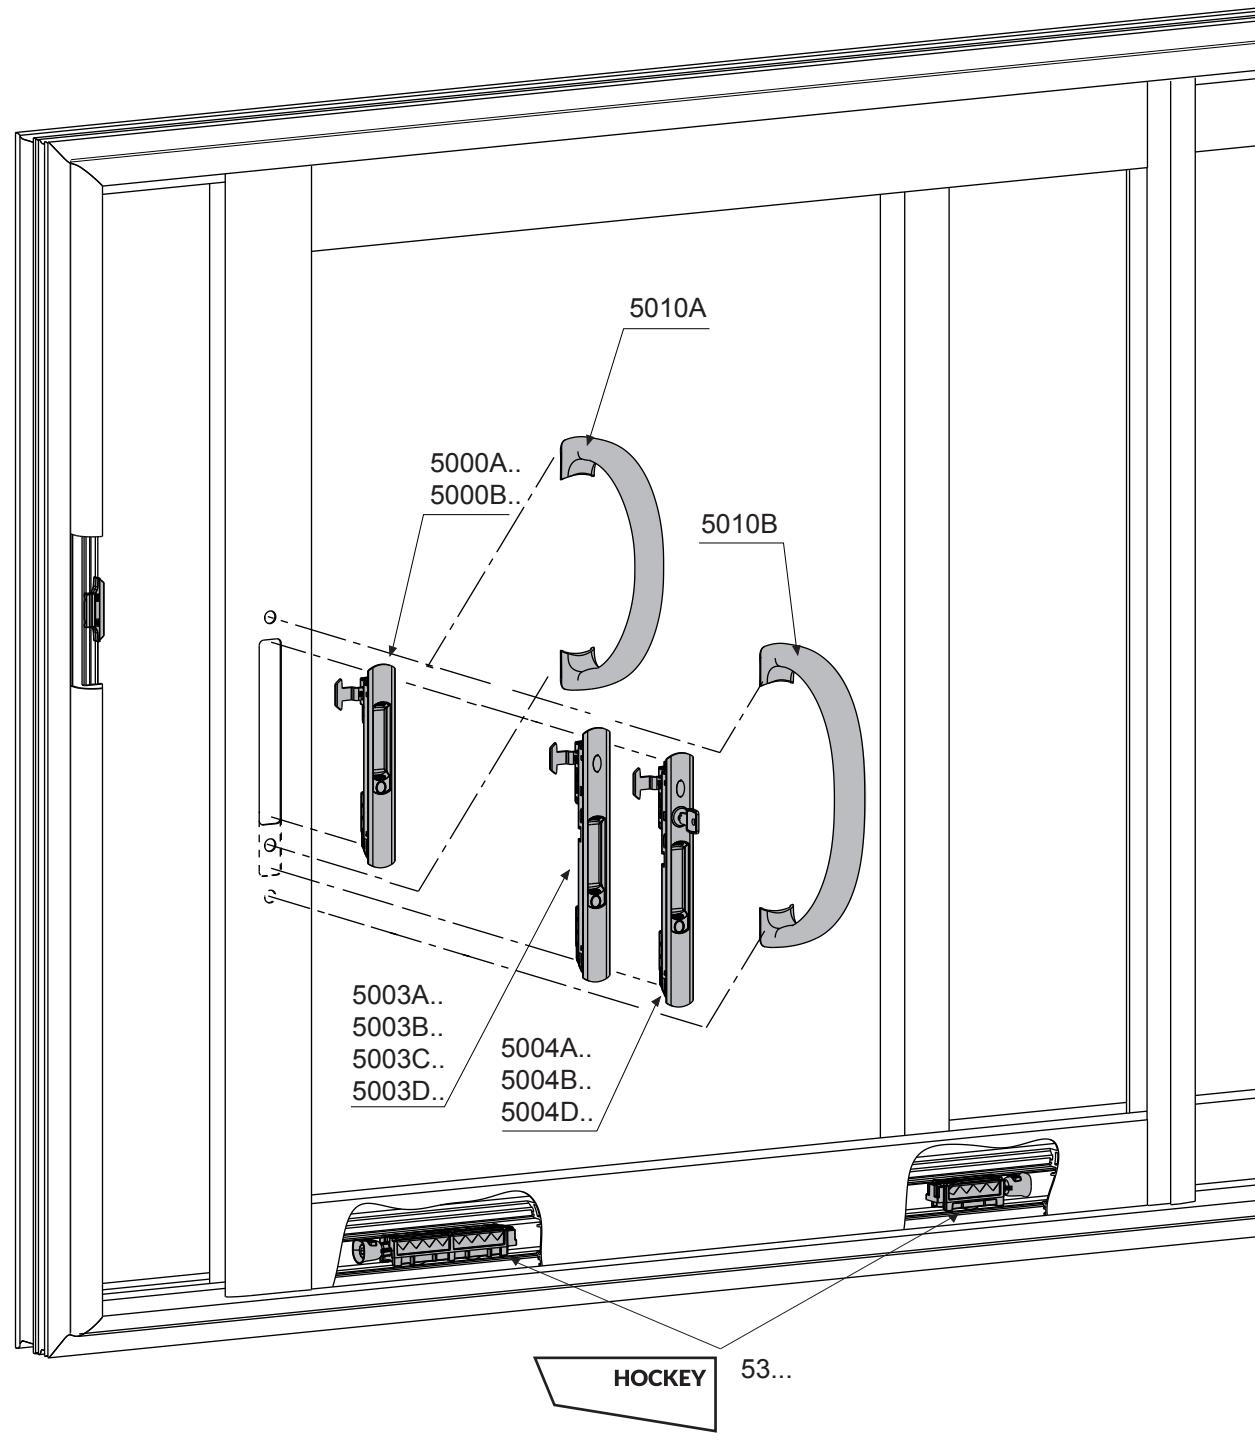

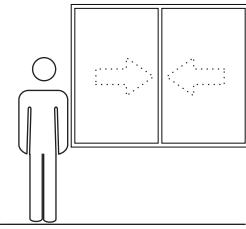

Semplice da utilizzare per il montaggio a scatto e la facilità di regolazione

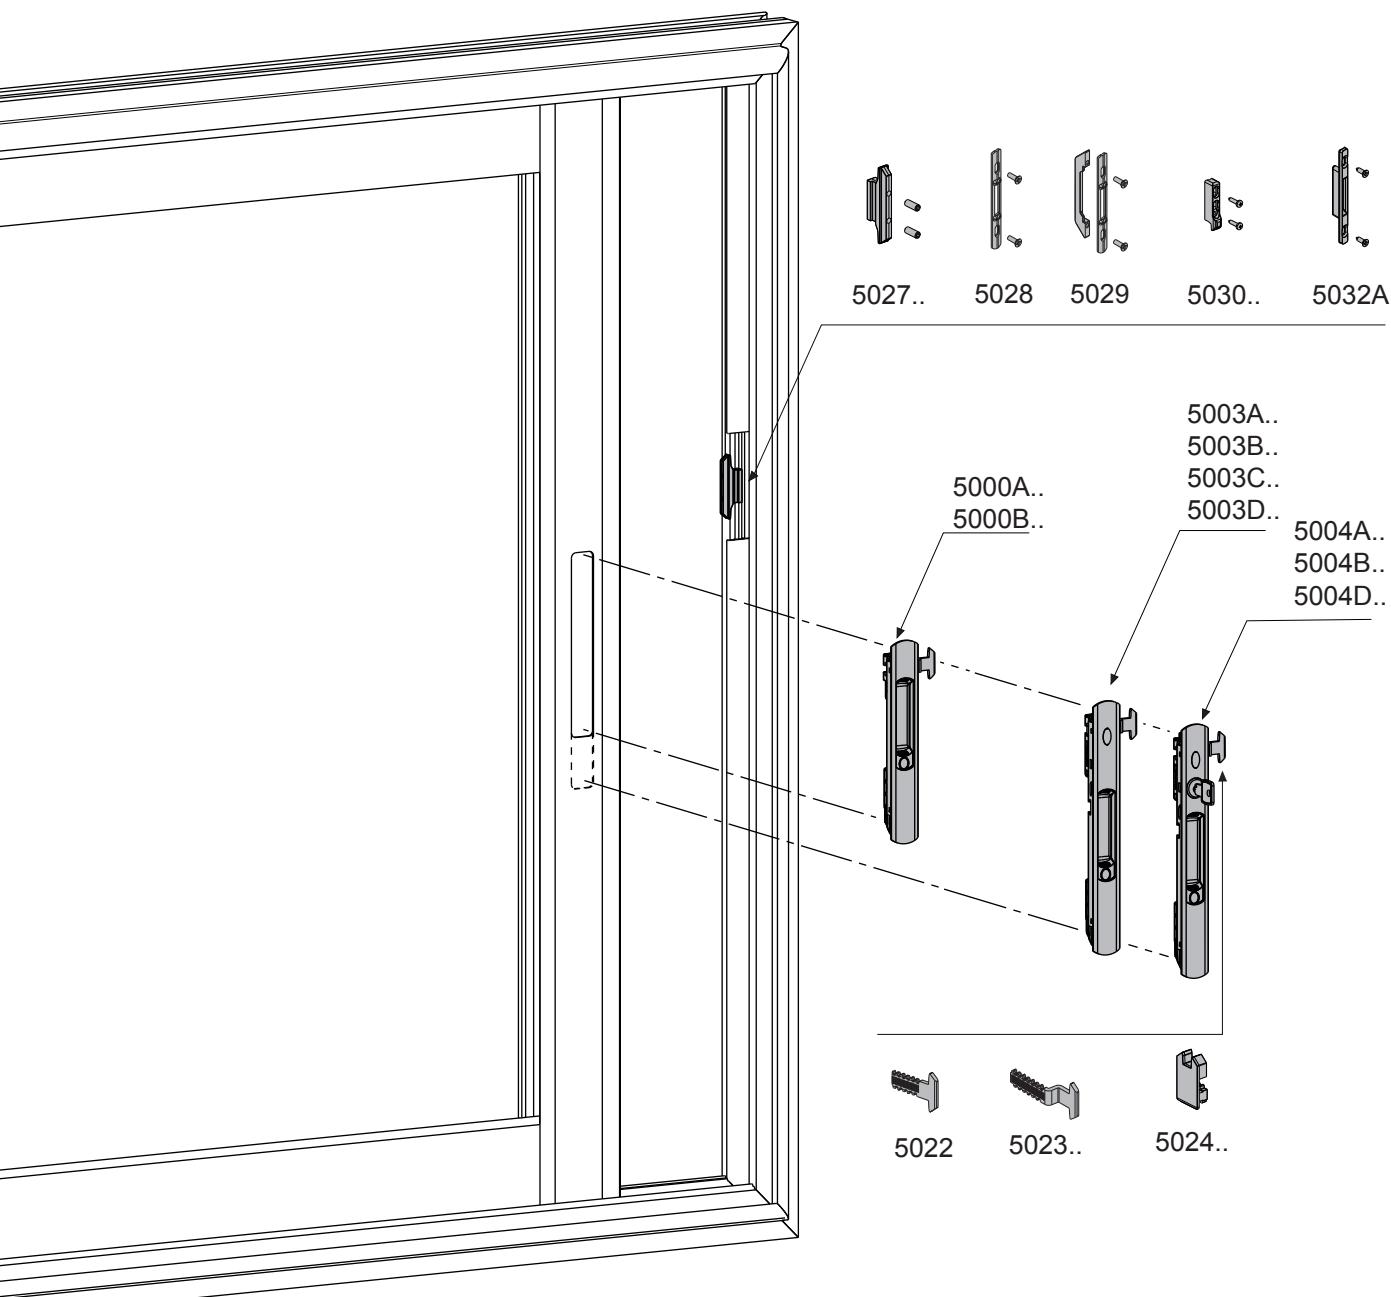

Easy to use thanks to snap assembly and ease of adjustment

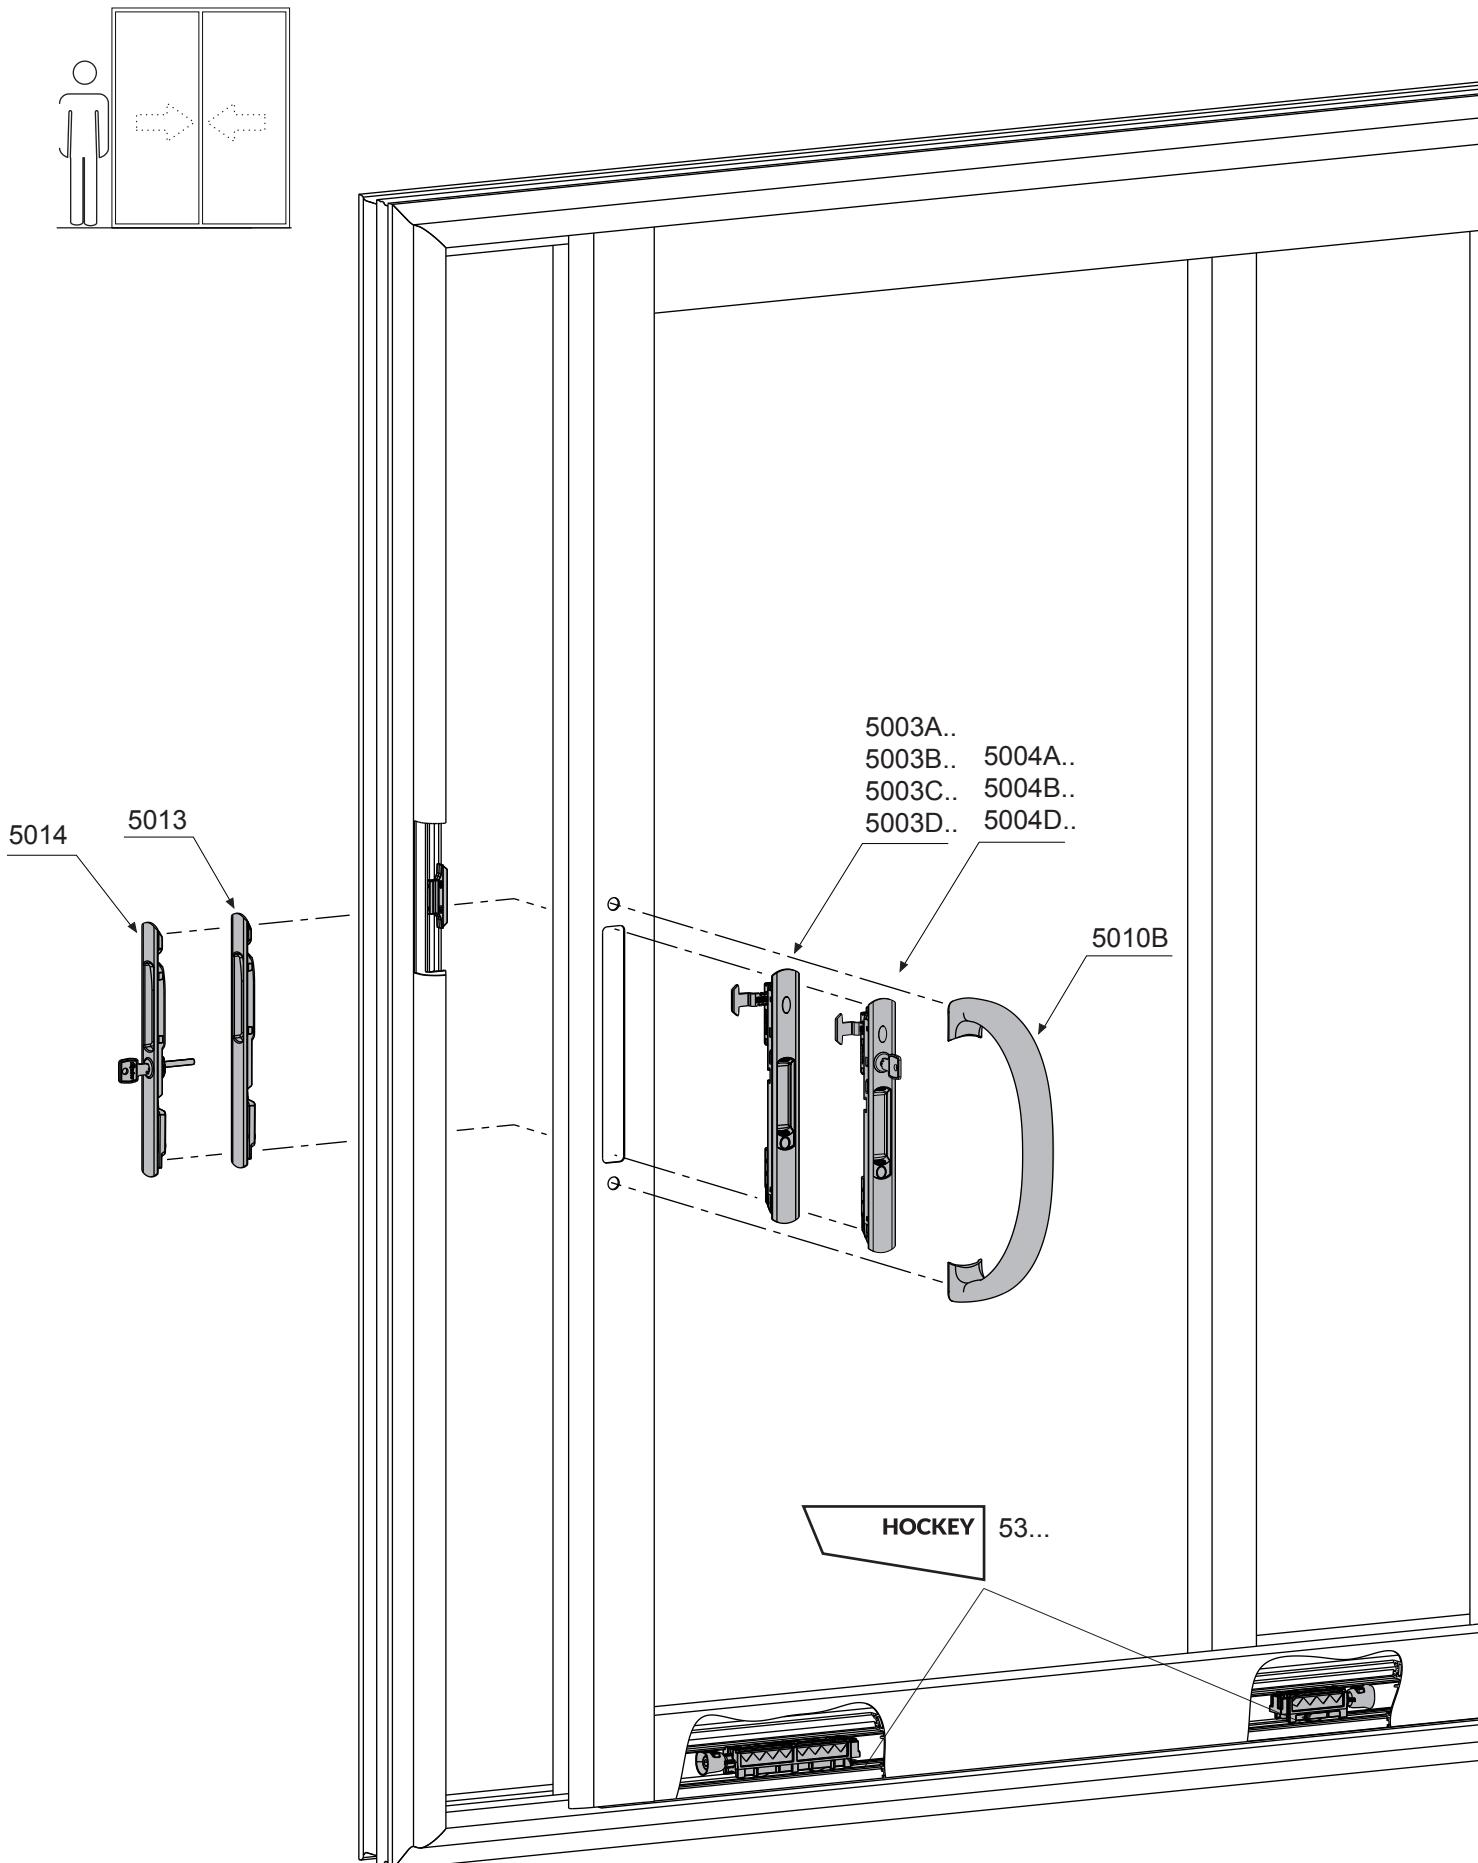

Facile à utiliser par un montage à cliper et la facilité d'ajustement

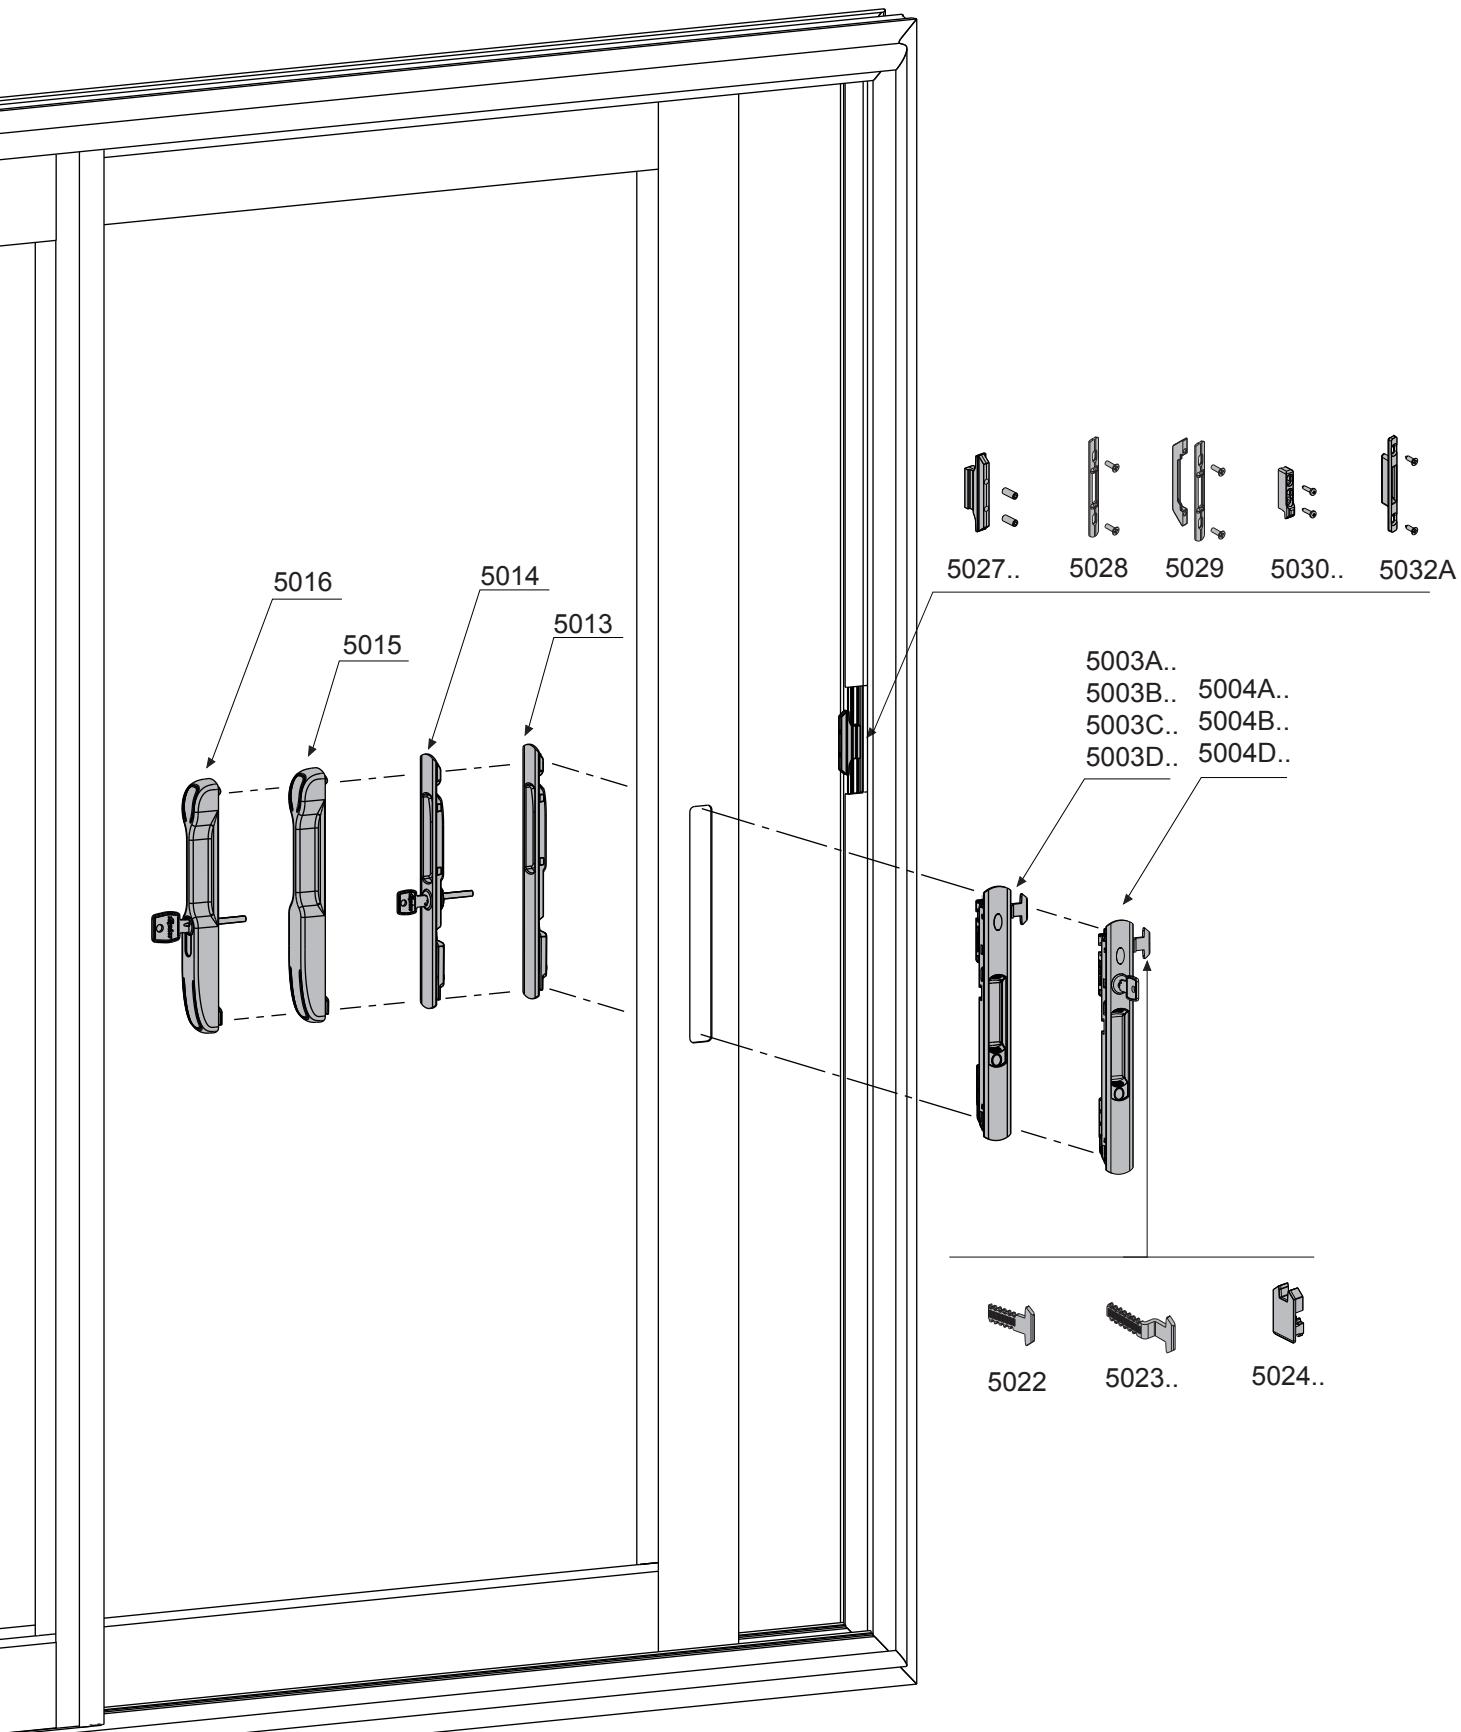

Fácil de usar para montaje a presión y facilidad de ajuste

Fácil de usar, montagem a pressão e facilidade de ajuste

Regolazione		La linea Olè è composta da vari modelli di maniglie di trascinamento applicabili sia all'interno che all'esterno dell'infisso, queste sono disponibili sia in versione da incasso che ad appoggio e in entrambi i casi anche nella versione con cilindro e chiave. Due maniglioni di trascinamento dal design ergonomico possono essere applicati alle maniglie interne. La linea Olè è completa da una vasta gamma di ganci ed incontri, che la rendono idonea a molti profili ed all'impiego in ogni mercato.

Regulação		
Montaggio universale		The Olè line is made up of various models of pulling handles applicable both inside and outside the door. These are available in both built-in and support versions and in both cases also with cylinder and key. Two pulling handles of pleasant design can be applied to the inside handles. The Olè line is completed by a wide range of hooks and keepers that make it suitable to many profiles and for use in all markets.
Universal assembly		
Montage universel		
Montaje universal		
Montagem universal		
Azionamento automatico		La gamme Olè est composée de différents modèles de cuvettes applicables tant à l'intérieur qu'à l'extérieur, elles sont disponibles soit dans la version encastrée que dans la version en appui et dans les deux cas également dans la version avec cylindre à clé. Deux grandes poignées de tirage très design peuvent être appliquées aux cuvettes internes. La gamme Olè est complétée par une large gamme de crochets et de gâches, qui la rendent idéal pour une utilisation dans plusieurs profils et à utiliser sur tous les marchés.
Automatic operation		
Actionnement automatique		
Accionamiento automático		
Operação automática.		
Azionamento manuale		La línea Olè ofrece diversos modelos de cierre únicos aplicables al interior así como también al exterior del cerramiento, están disponibles tanto en la versión de encaje que de apoyo y, en ambos casos, también en la versión con cilindro y llave. Dos asas de arrastre con un diseño interesante se pueden aplicar a los tiradores. La línea Ole a se completa con una amplia gama de ganchos y cerraderos , que la vuelven ideal para su uso sobre perfiles diferentes y en todos los mercados.

Lo spessore della cassa, pari a 17 mm, anche quando equipaggiata con i suoi accessori complementari, permette il montaggio anche su profili con larghezze estremamente ridotte.

The thickness of the case, equal to 17 mm, even when equipped with its complementary accessories, allows assembly even on profiles with very small widths.

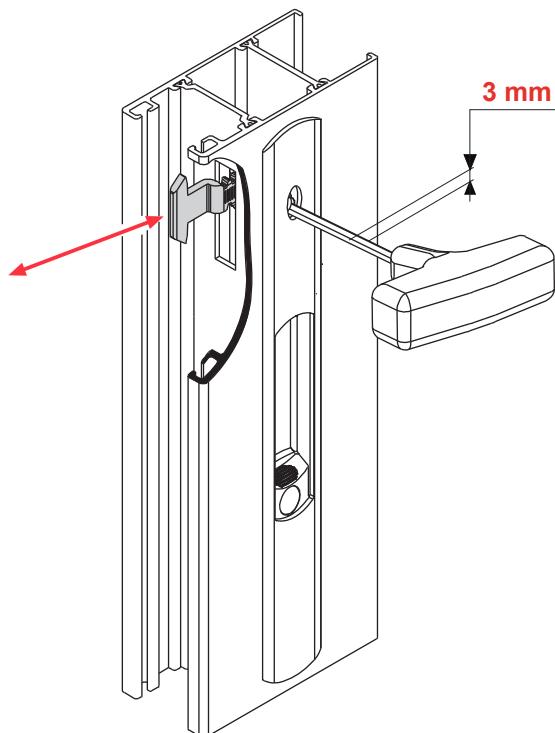

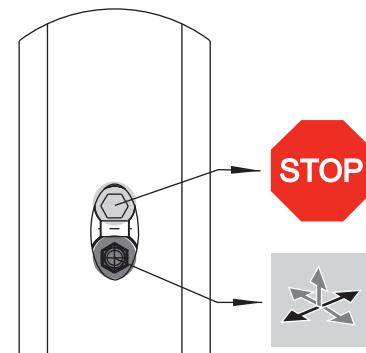

L'épaisseur du boîtier, de 17 mm, même lorsqu'il est équipé de ses accessoires complémentaires, peut être monté sur des profils de largeurs très petites.

El espesor de la caja, igual a 17 mm, incluso cuando está equipada con sus accesorios complementarios, se puede montar en perfiles con anchuras muy reducida.

A espessura da caixa, igual a 17 mm, mesmo quando equipados com os respectivos acessórios complementares, podem ser montados perfis com larguras muito pequenas

Tutti i modelli sono dotati di regolazione orizzontale del gancio. I modelli Ole+ e Ole Top sono dotati di regolazione micrometrica e si esegue a serramento chiuso. Il successivo bloccaggio si effettua senza dover movimentare la maniglia garantendo così l'accuratezza della regolazione.

All models are equipped with horizontal adjustment of the hook. In the Ole+ and Ole Top versions adjustment is micrometric and is carried out when the door is closed. The subsequent blocking is done without having to move the handle, thus ensuring the accuracy of the adjustment.

Tous les modèles sont équipés de réglage horizontal du crochet. Dans les versions Ole+ et Ole Top le réglage est micrométrique et il est fait avec la porte ou la fenêtre fermée. Le blocage définitif se fait sans avoir à déplacer la cuvette assurant ainsi la précision du réglage.

Todos los modelos disponen de regulación horizontal del gancho. En las versiones Ole Top y Ole + la regulación es micrométrica e se efectúa con cerramiento cerrado. El bloqueo posterior se realiza sin tener que mover la manilla asegurando así la precisión de la regulación.

Todos os modelos têm ajuste horizontal do ganche. Em versões Ole Top e Ole + a regulação é micrométrica e é realizada com a janela fechada. O bloco traseira é feita sem mover a alavanca asegurando assim a optima precisão de regulaçāo

Le maniglie sono equipaggiate di meccanismo a molla che permette la chiusura automatica senza l'intervento sull'impugnatura.

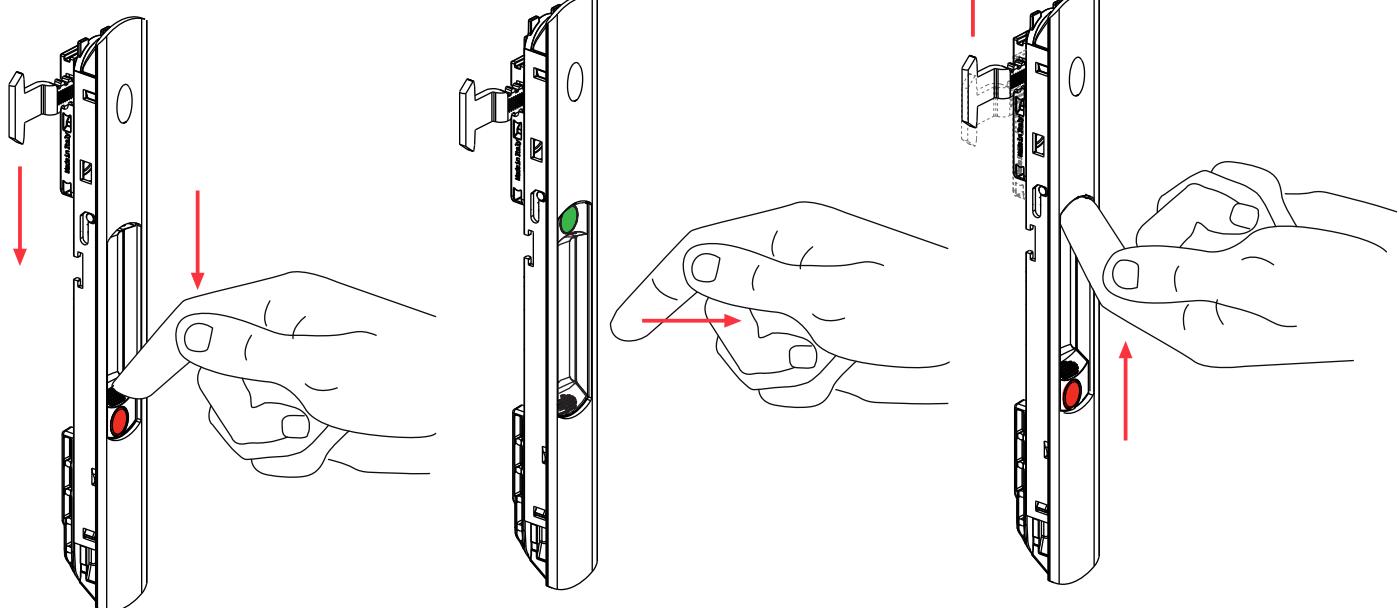

The handles are equipped with a spring mechanism that allows the automatic closing without intervention on the handle.

Les cuvettes sont équipées d'un mécanisme à ressort permettant la fermeture automatique sans agir sur la poignée.

Los cierres disponen de mecanismos con muelles que permiten el cierre automático sin la intervención sobre la empuñadura.

Os fechos têm mecanismos com molas, que permitem o fechamento automático, sem intervenção no punho

Azionamento manuale  
 Manual operation  
 Actionnement manuel  
 Accionamiento manual  
 Operação manual

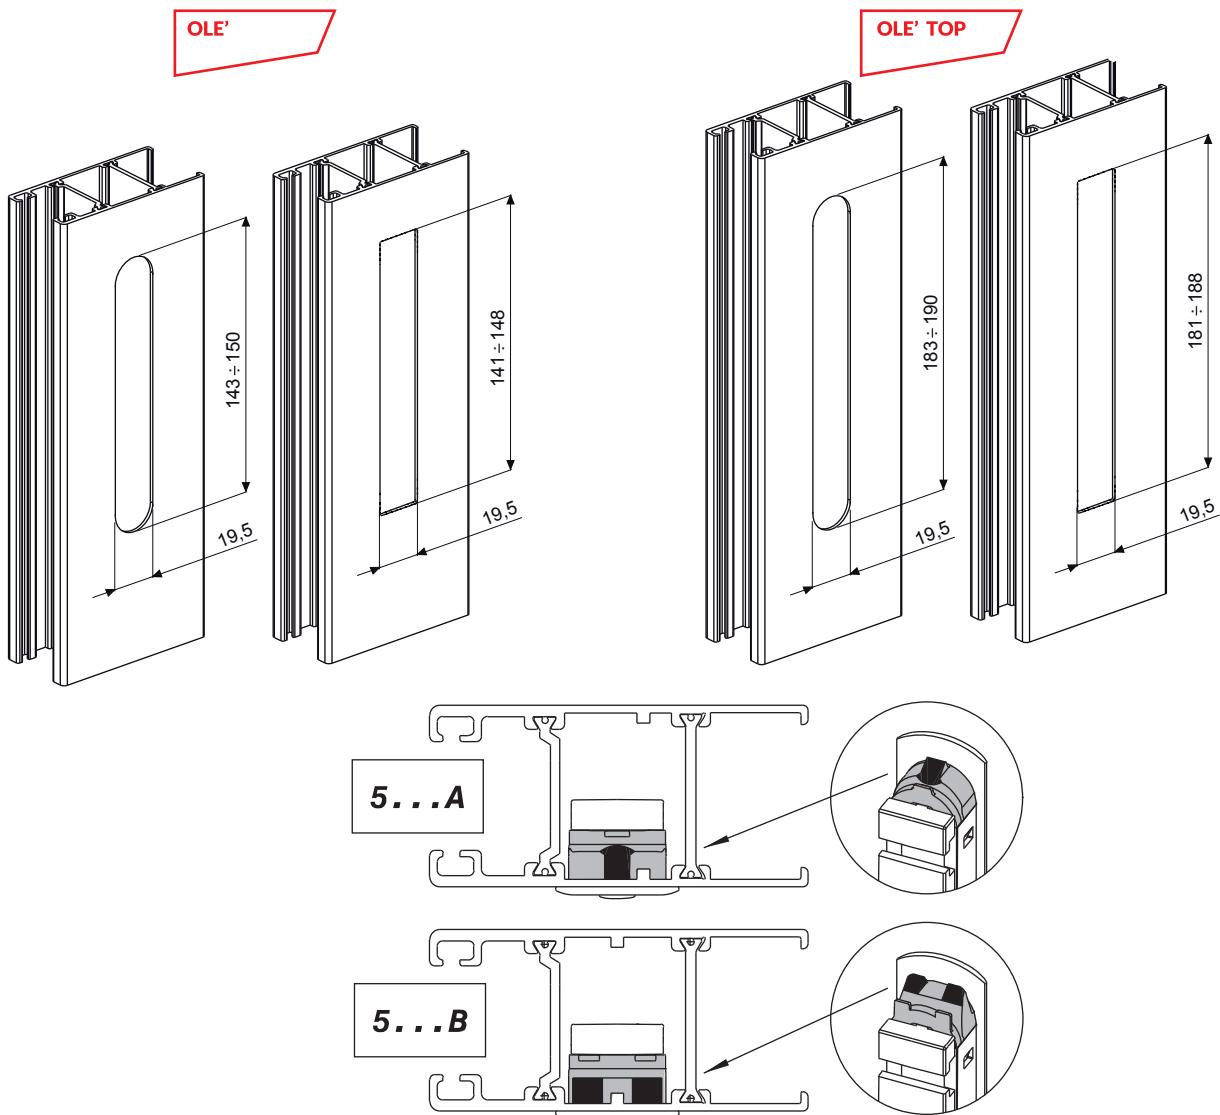

Le maniglie possono essere settate per l'azionamento manuale, cioè la chiusura si ottiene solo tramite l'intervento diretto sull'impugnatura.

The handles can be set for the manual operation, that is the closing is achieved only through the direct intervention on the handle.

Les cuvettes peuvent être prédisposées pour l'actionnement manuel, soit la fermeture n'est obtenue qu'agissant directement sur la poignée.

Los cierres pueden ser predisuestos para el accionamiento manual, es decir el cierre se obtiene solo por medio de la intervención sobre la empuñadura.

Os fechos podem estar predispostos para a operação manual, ou seja, o encerramento é obtida somente através da intervenção no punho.

Il sistema di montaggio a molla, unita alla particolare forma dell'estremità di fissaggio permettono l'applicazione su lavorazioni sia di forma rettangolare che rotonda, con una tolleranza di 7mm sulla lunghezza.  
Esistono due versioni di aggancio, con uno o due denti, che consentono la massima universalità di fissaggio.

The spring mounting system, combined with the particular shape of the fixing end allow the application on both rectangular and round processing, with a tolerance of about 7mm as to the length.  
There are two versions of coupling, with one or two teeth, that allow maximum flexibility to fixing.

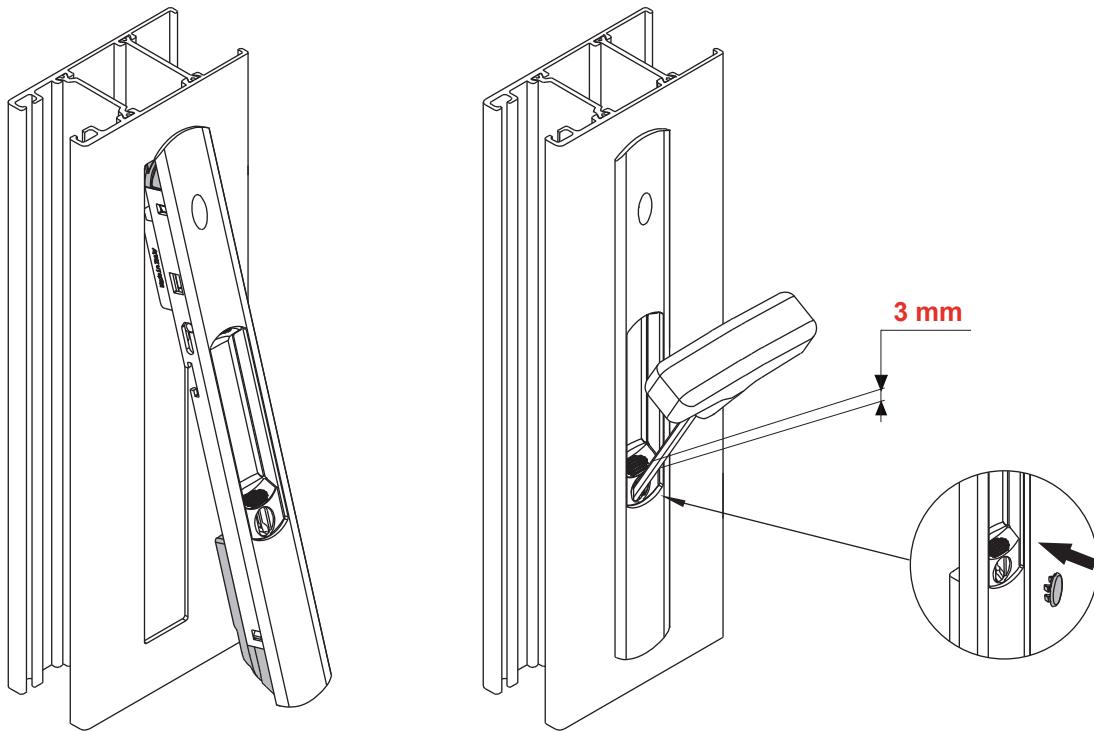

Le système de montage à ressort, associée à la forme particulière de la fixation permet l'application sur un usinage de forme rectangulaire ou ronde, avec une tolérance d'environ 7 mm sur la longueur.  
Il existe deux versions de fixation, avec une ou deux dents, qui permettent une fixation universelle.

El sistema de montaje de resorte, además de la forma particular de la fijación permiten el uso sobre mecanizados tanto Hay dos versiones, con un diente o con dos dientes que permiten una fijación universal.

O sistema de montagem da mola, além à forma particular de ligação permite o uso em perfurado rectangular que redondo com uma tolerância de cerca de 7 mm de comprimento. Existem duas versões, com um ou dois dentres que permitem a montagem universal.

Aggancio rapido  
Quick coupling  
Attache rapide  
Enganche rápido  
Engate rápido

---

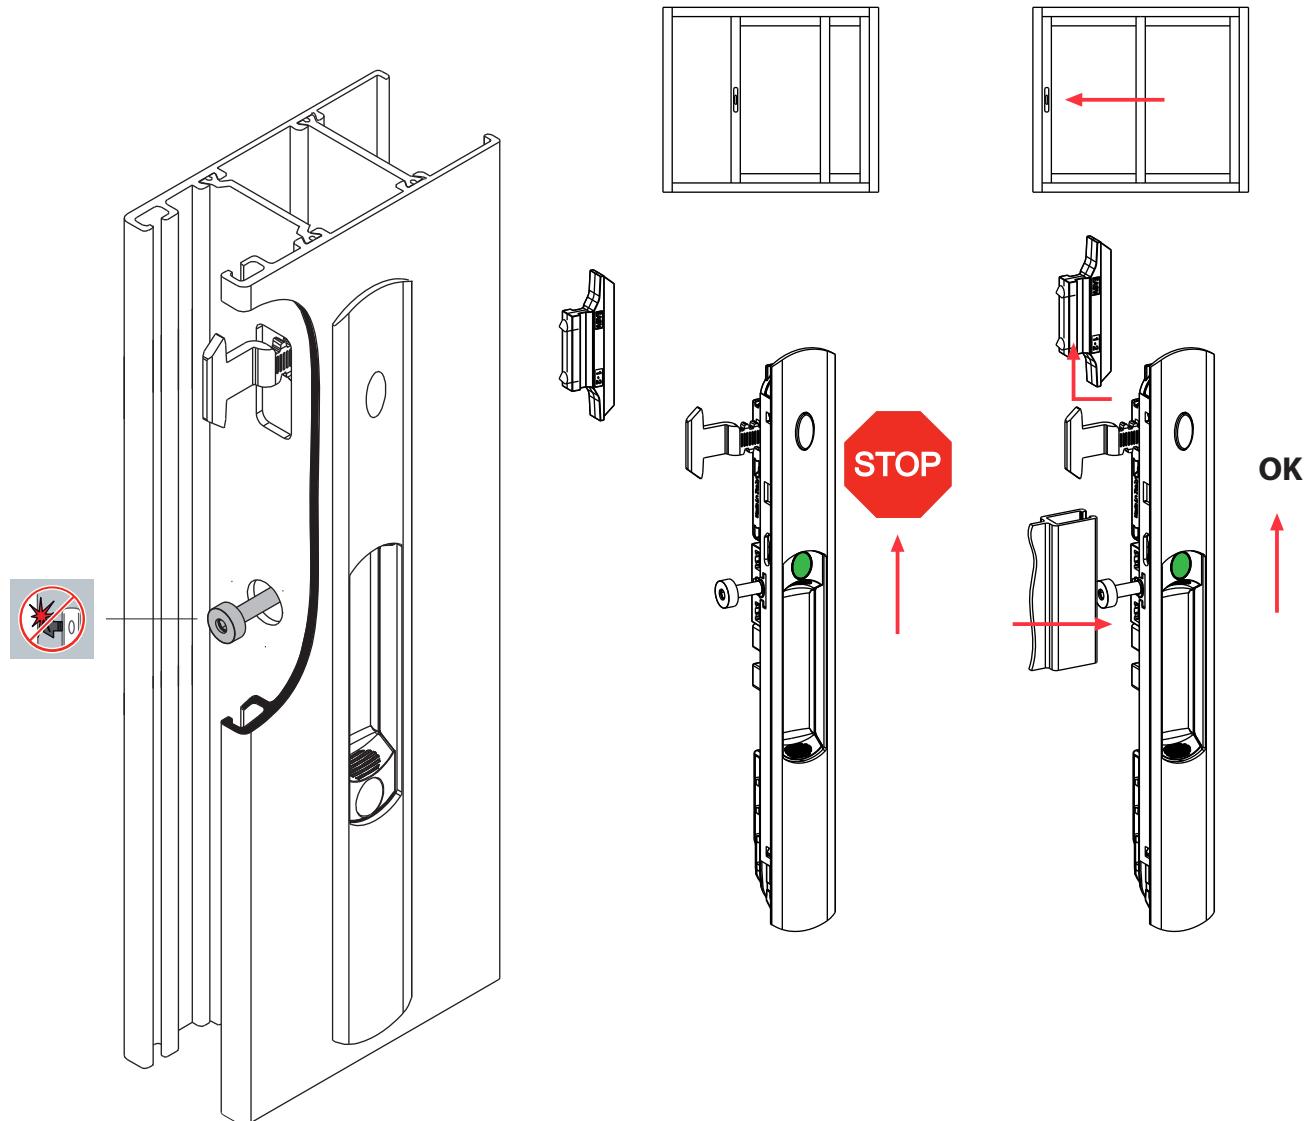

Il montaggio avviene a scatto e senza viti in vista. Il bloccaggio finale si ottiene mediante un grano interno che garantisce la tenuta e stabilità nel tempo.

Snap assembly with no visible screws. The final lock is obtained through a inner dowel that ensure the tightness and stability over the time.

L'assemblage est à déclenchement sans vis en vue. Le blocage définitif est obtenu par une vis interne qui garantit a tenuet la stabilité dans le temps.

El montaje es muy fácil y sin tornillos visibles. El bloqueo final se obtiene por medio de un tornillo prisionero que garantiza la estanqueidad y estabilidad en el tiempo.

A montagem é muito simples e sem parafusos visíveis. O bloco final é obtido por meio de um parafuso que assegura uma estanquicidade e estabilidade ao longo do tempo

Il dispositivo anti falsa manovra evita gli urti tra gancio ed incontro ed i conseguenti danni e malfunzionamenti. È fornito come optional ed è compatibile con il dispositivo antieffrazione.

The mishandling device prevents collisions between the hook and the keeper and subsequent damage or malfunction. It is supplied as an option and is compatible with the anti-theft device.

Le dispositif anti fausse manœuvre évite les heurts entre le crochet et la gâche et les éventuels dommages ou un dysfonctionnement. Il est fourni en option et il est compatible avec le dispositif antieffraction.

El dispositivo anti falsa maniobra evita las colisiones entre gancho y cerradero y los posibles daños o mal funcionamiento. se ofrece como una opción y es compatible con el dispositivo anti robo.

O dispositivo anti manobra falsa, evita o mau funcionamento. Servido como opção e compatível com o dispositivo anti-roubo

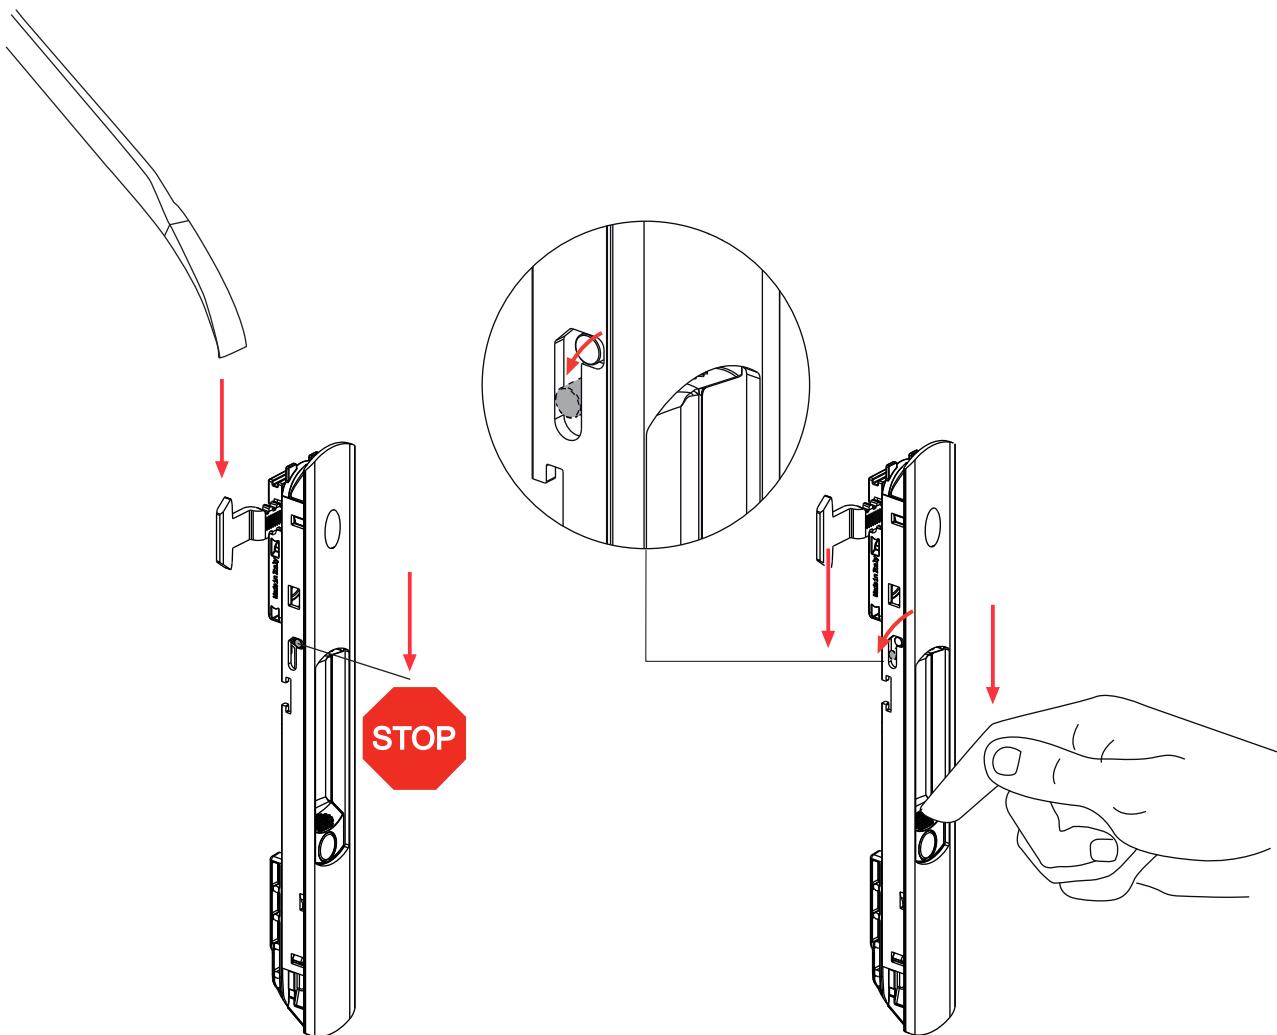

Anti effrazione

Anti-burglary device

Anti effraction

Anti robo

Anti ruobo

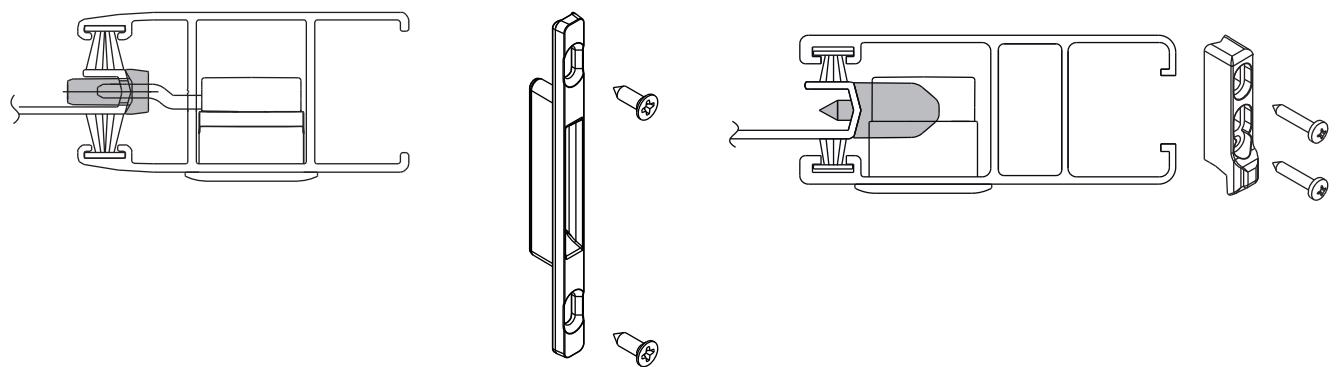

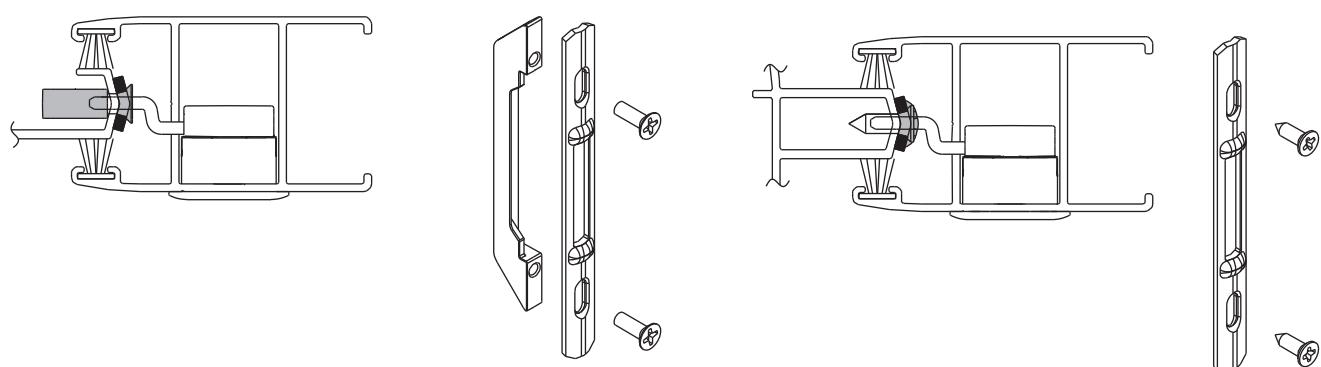

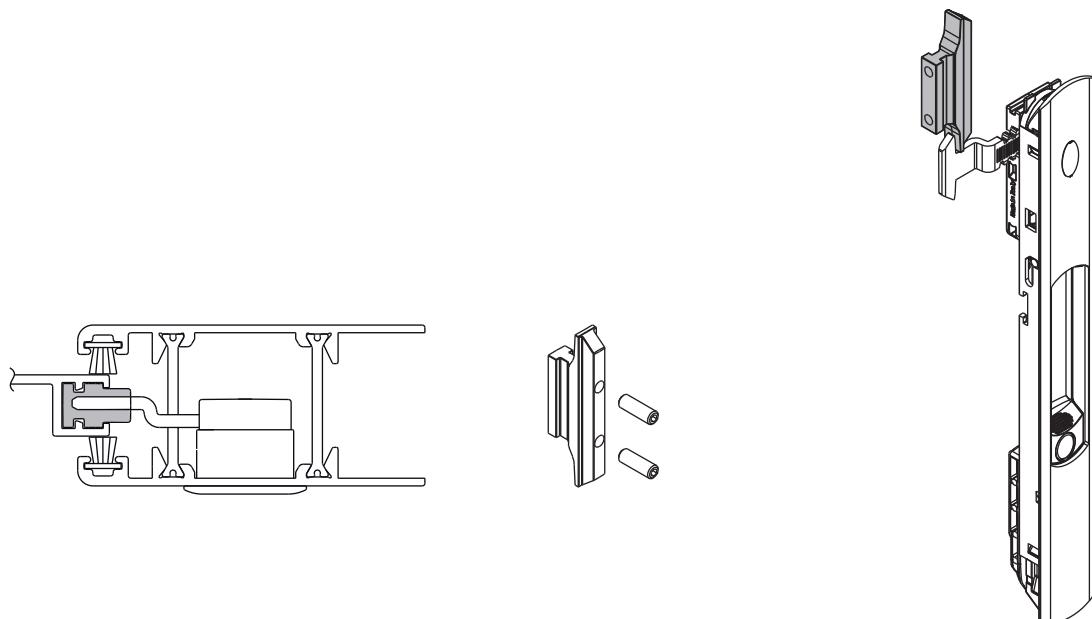

Il dispositivo antieffrazione impedisce il movimento del gancio quando la maniglia è in posizione di chiusura. È montato di serie nei modelli Olè+ ed Ole Top ed è compatibile con il meccanismo anti falsa manovra. È realizzato in metallo e presenta quindi la massima resistenza ed affidabilità.

The anti-theft device prevents the movement of the hook when the sliding handle is in the closed position. It is fitted as standard in the Ole + and Ole Top models and is compatible with the mishandling mechanism. It is made of metal to ensuring the highest strength and reliability.

Le dispositif antieffraction empêche le mouvement du crochet lorsque la cuvette est dans la position fermée. Il est monté en série sur les modèles et Ole + et Ole Top et il est compatible avec le mécanisme anti-fausse manœuvre. Il est fait en métal et assure donc une plus grande robustesse et fiabilité.

El dispositivo anti-robo impide el movimiento del gancho cuando el cierre uñero está en la posición cerrada. Es de serie en los modelos Ole + y Ole Top y es compatible con el mecanismos anti falsa manobra. Es de metal y por lo tanto tiene la mayor resistencia y fiabilidad.

O dispositivo anti-roubo impede o movimento do gancho de bloqueio quando o fecho unha está na posição fechado. É padrão nos modelos de Ole Ole + Top e compatível com os mecanismos anti manobra falsa. É de metal e, portanto, tem a mais alta resistência e confiabilidade

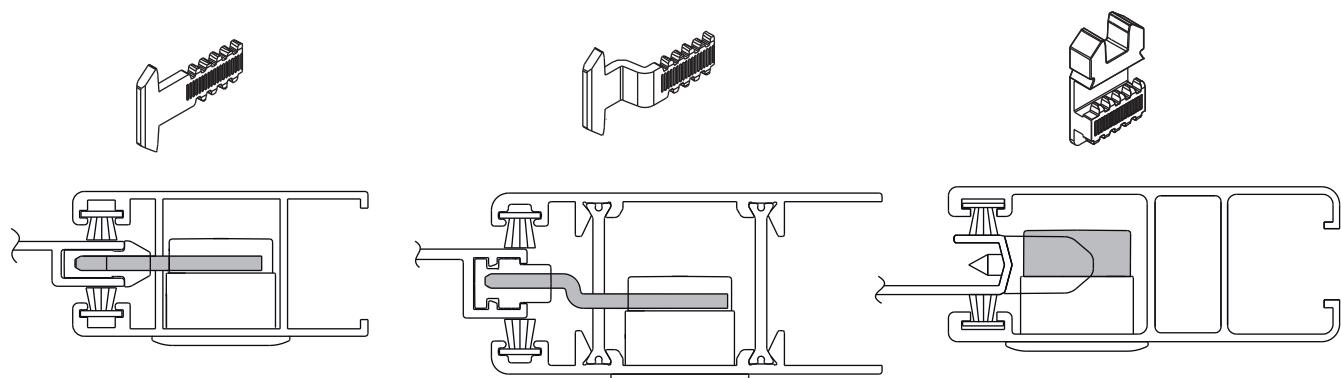

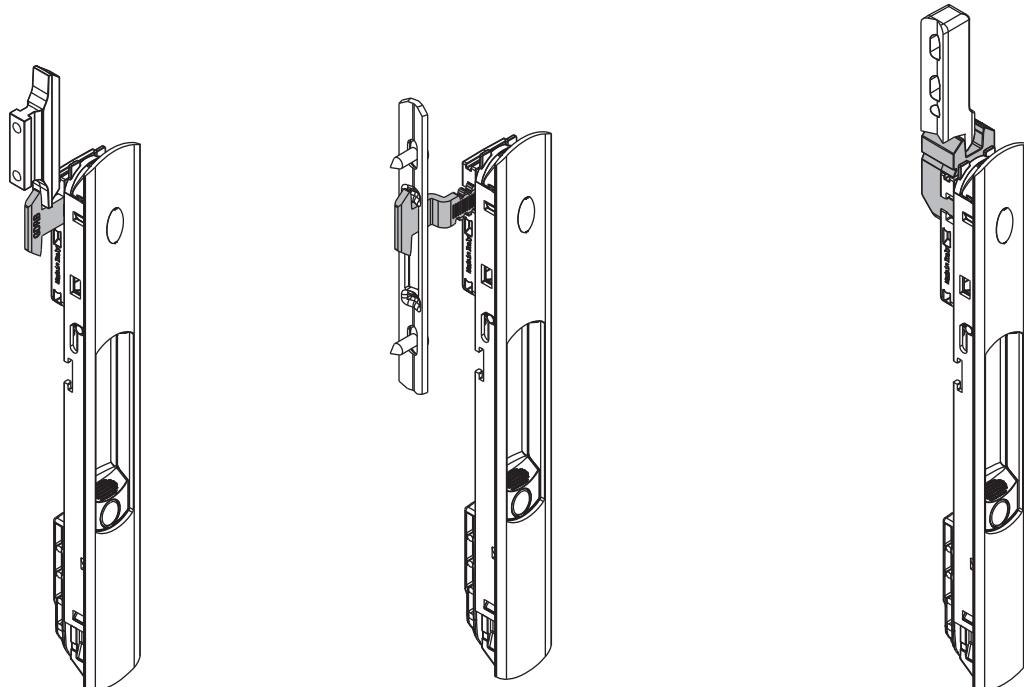

Ganci e incontri

Hooks and keepers

Crochets et gâches

Ganchos y cerraderos

Ganches e encontros

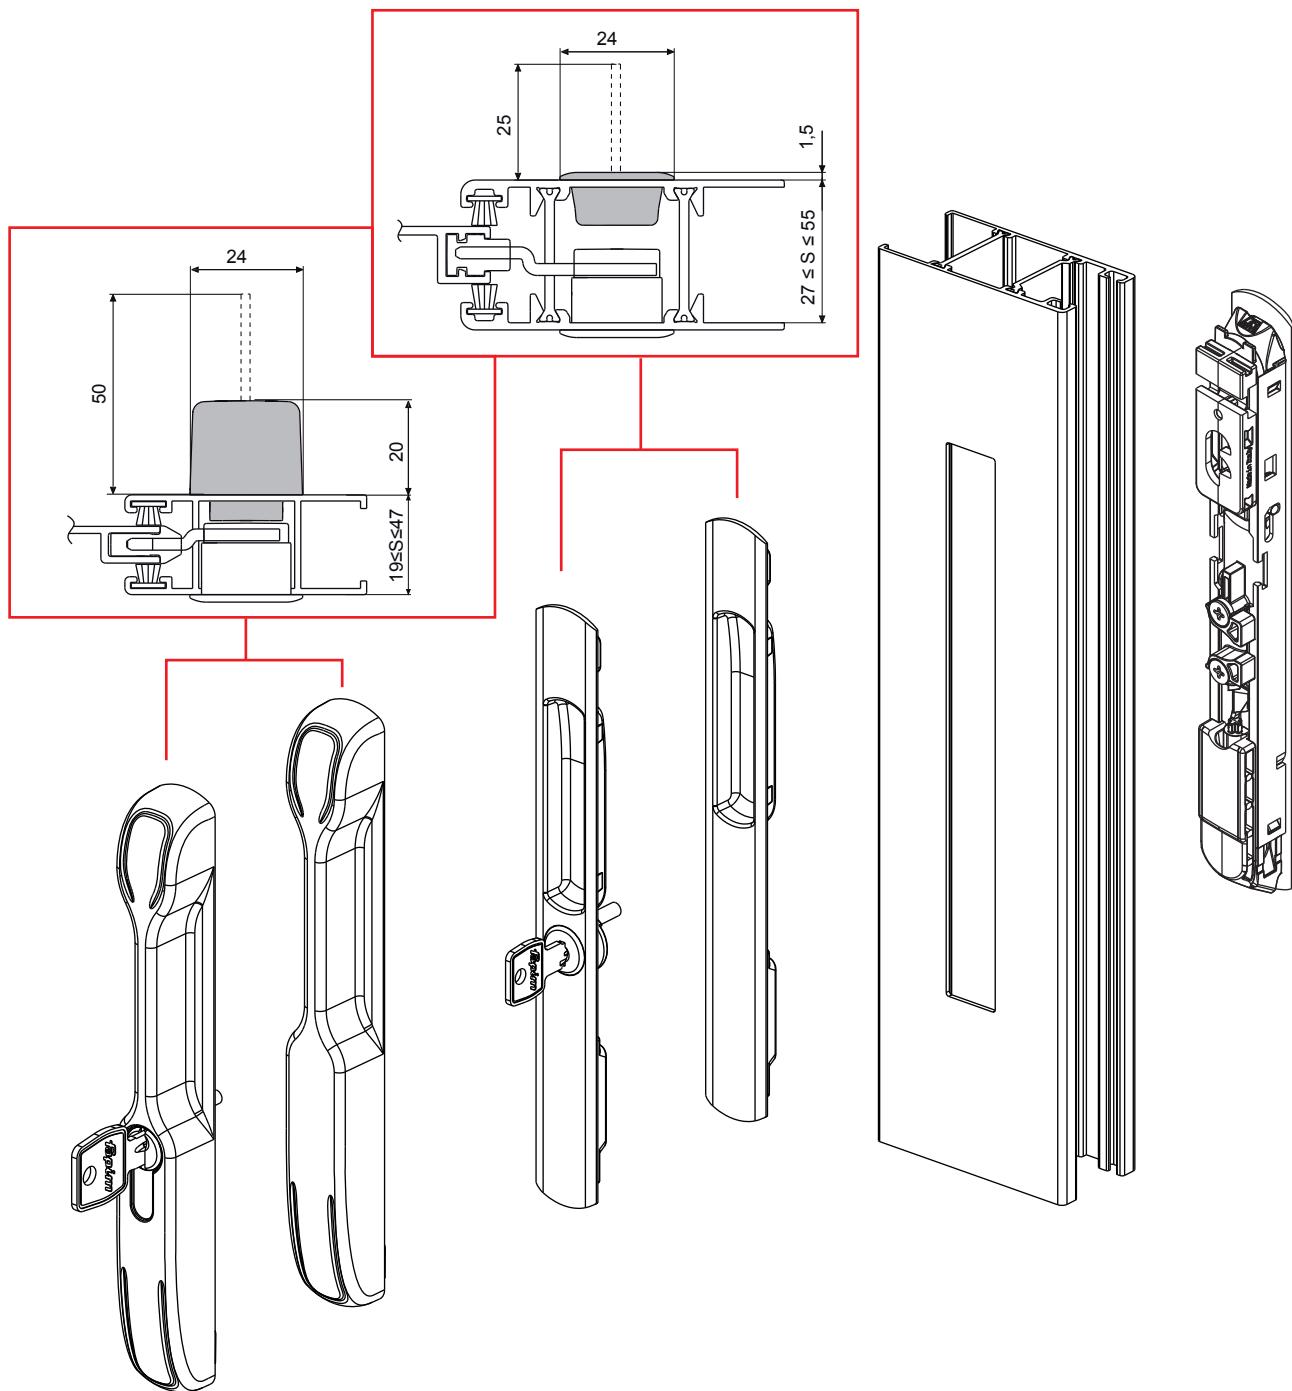

Ganci ed incontri, in acciaio o zama, sono disponibili sia nella versione tradizionale sia in quella per chiusure ravvicinate. I ganci hanno una particolare forma zigrinata che garantisce il bloccaggio sicuro e durevole, mentre sono disponibili sia nella versione ad infilare sia ad appoggio a seconda della tipologia del profilo.

Hooks and keepers in either steel or zamak, are available in both traditional and for close lock versions. Hooks have a particular knurled shape ensuring safe and durable lock and are available in both mortise and support version depending on the type of profile.

Crochets et gâches, en acier ou en zamak sont disponibles aussi bien dans la version traditionnelle soit dans la version pour fermetures rapprochées . Les crochets ont une forme moletée qui garantit le verrouillage sûre et durable, ils sont disponibles soit dans la version à enfiler qu'en appui selon la typologie du profil.

Ganchos y cerraderos de acero o zamak están disponibles tanto en la tradicional versión y en la para cierres cercanos . Los ganchos tienen una forma particular que garantiza el bloqueo seguros y duraderos, y están disponibles tanto en la versión de embutir y de apoyo de acuerdo con el tipo de perfil.

Ganches e encontros de aço ou de zamac estão disponíveis na versão tradicional e restos de sistemas. Os ganches têm uma desenho especial que garante fechamento seguro e durável, e estão disponíveis em versão de e,bitorde e apoio de acordo com o tipo de perfil.

Le maniglie esterne, ad incasso o ad appoggio, sono disponibili anche in versione con chiave. Due maniglioni di trascinamento completano la linea Olè. Il sistema di fissaggio avviene senza viti in vista e permette il trascinamento dell'anta senza sforzi sulla maniglia.

Outside handles, recessed or support are also available in the version with key. Two pulling handles do complete the Olè range. Fixing is made without visible screws and allows sash pulling with no efforts on the sliding handle.

Les poignées externes, encastrees ou en applique, sont également disponibles en version avec clé. Deux poignées de tirage complètent la ligne Olè. Le système de fixation se fait sans vis apparente et il permet la manœuvre de l'ouvrant sans efforts sur la cuvette.

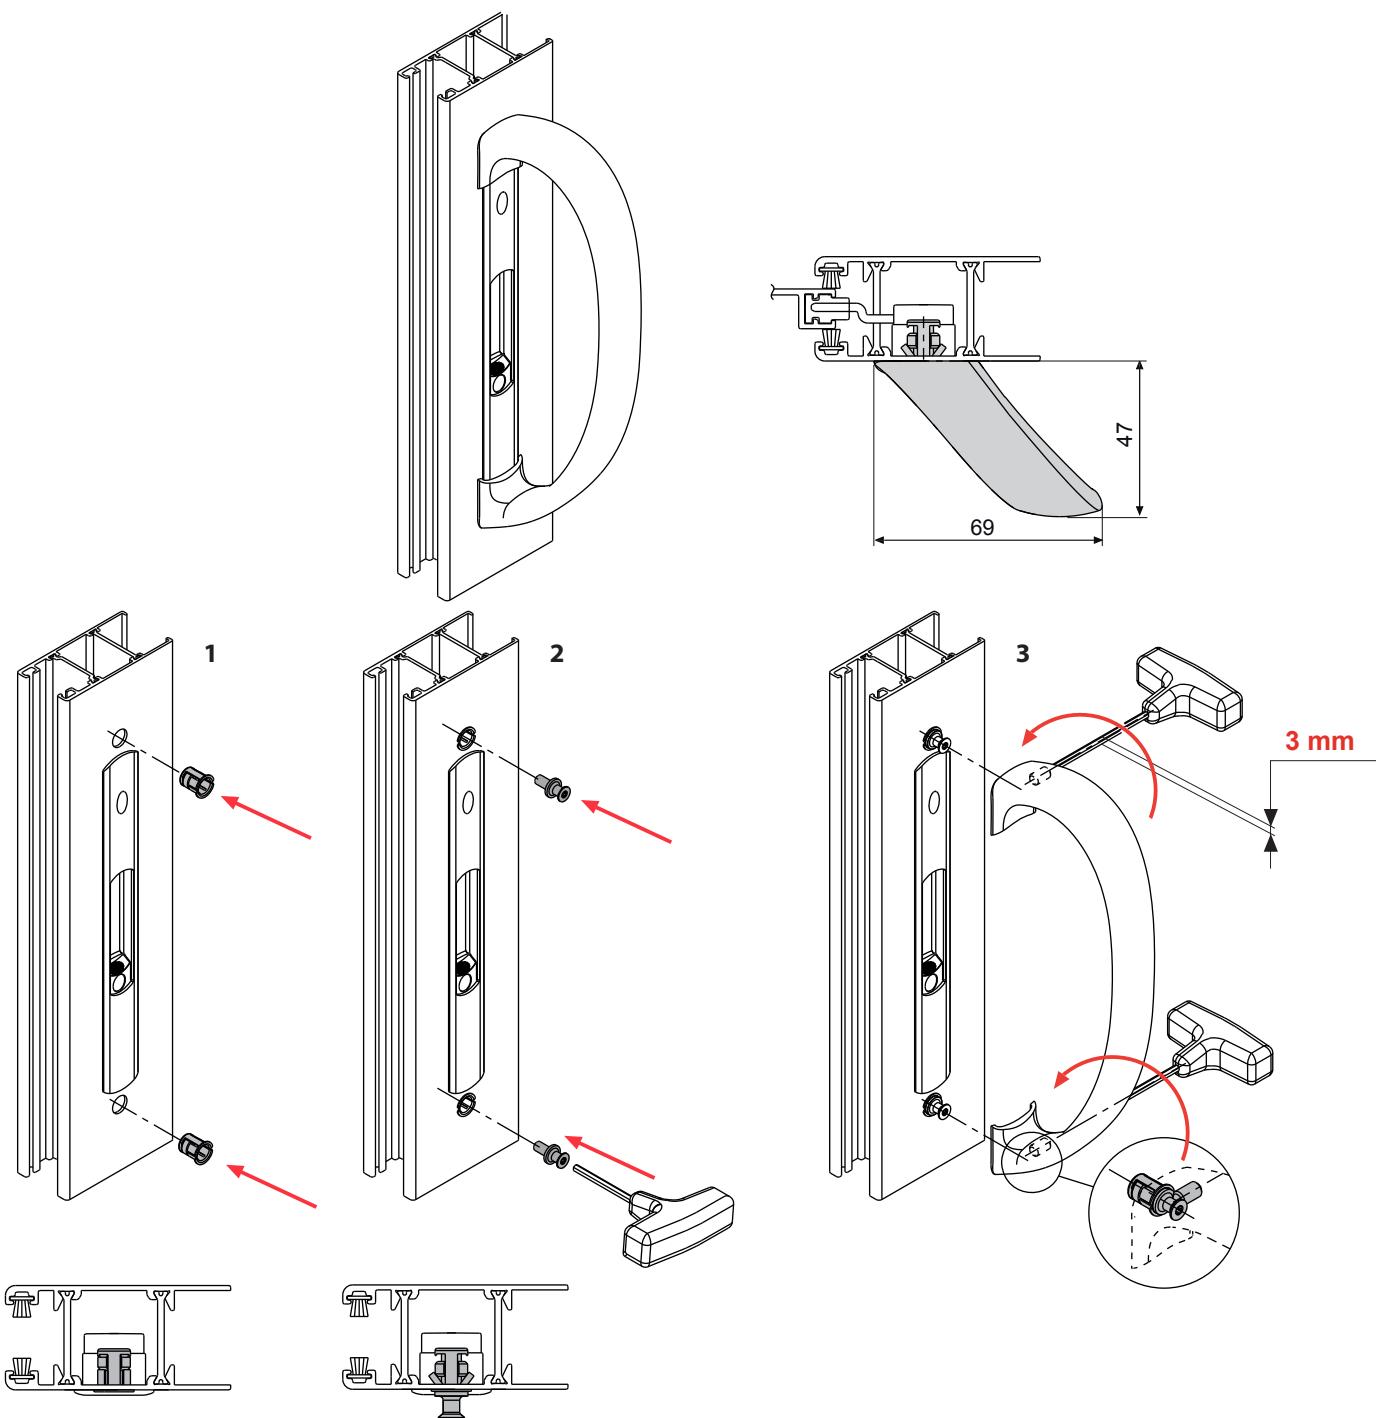

Impugnatura supplementari

Additional handles

Poignées complémentaires

Empuñadura adicional

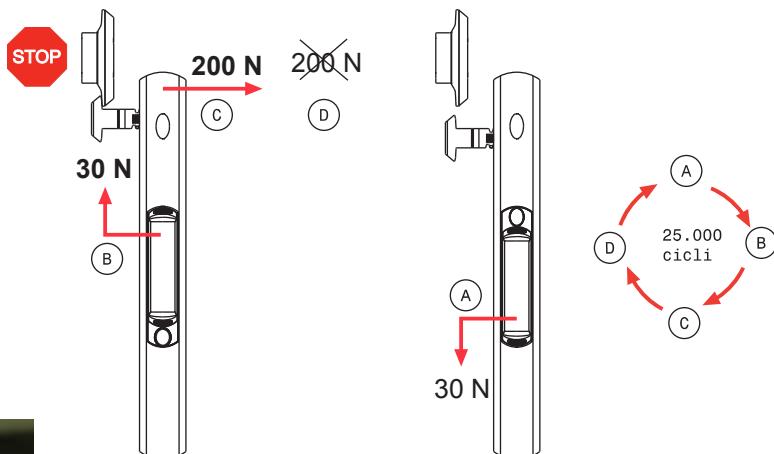

Puxador adicional

Cierres uñeros exteriores de encaje o de apoyo, están disponibles aun en versión con llave.

Dos asas de arrastre completan la línea Ole. El sistema de fijación se realiza sin tornillos a la vista y permite el arrastre de la hoja sin esfuerzos sobre el uñero.

Fechos de exterior embutidos ou de superfície, disponíveis tambem em verçao com chave. Duas asas para puxar completam a linha Ole. O sistema de fixação é feita sem parafusos visíveis e permite puxar a folha esforço em uñero

UNI EN 13126-19:2011

UNI EN 13126-19:2011

La maniglia Olè viene sottoposta a test che ne certificano la durabilità , la resistenza , la sicurezza e la funzionalità . La scelta dei materiali utilizzati per i componenti principali determina l'affidabilità ai Test alla corrosione ed il corretto funzionamento alle alte e basse temperature.

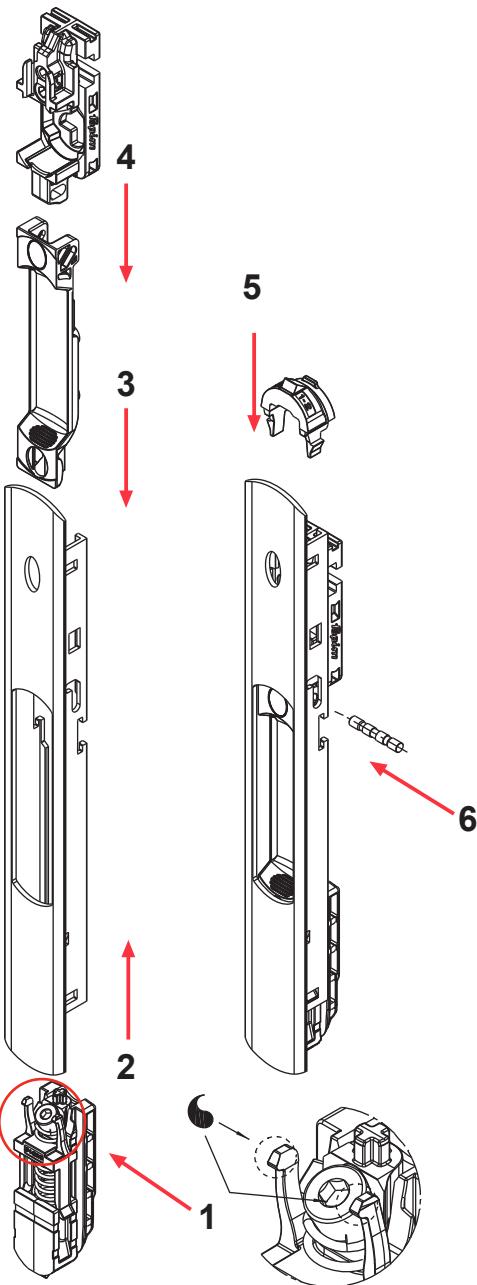

The Olè handles are subject to test methods certifying their durability, strength, safety and functionality. The choice of the materials used for the main components determines the reliability as to the corrosion tests and the proper working at high and low temperatures.

La cuvette Olè est soumise à des méthodes d'essai qui certifient la durabilité, la résistance, la sécurité et la fonctionnalité. Le choix des matériaux utilisés pour les composants principaux qui détermine la fiabilité aux essais de corrosion et le bon fonctionnement à hautes et basses températures.

El cierre uñero Olè se somete a ensayos para certificar su durabilidad, resistencia, seguridad y funcionalidad. La elección de los materiales utilizados para los componentes principales determina la fiabilidad de los ensayos el correcto funcionamiento con altas y bajas temperaturas.

O fecho Olè é submetido a testes para certificar a sua resistência, durabilidade, segurança e funcionalidade. A escolha dos materiais utilizados para os principais componentes, determina a fiabilidade de teste e o ótimo funcionamento com altas e baixas temperaturas

Revestimento de superficie

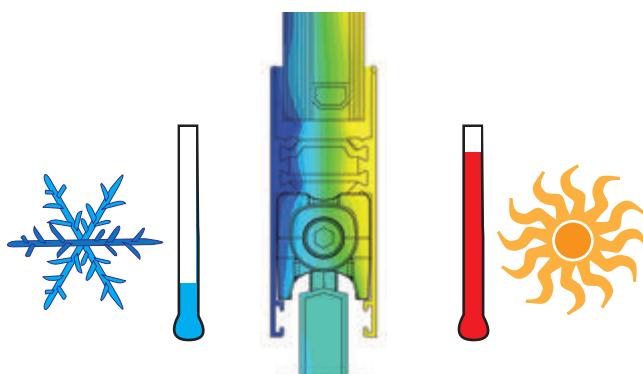

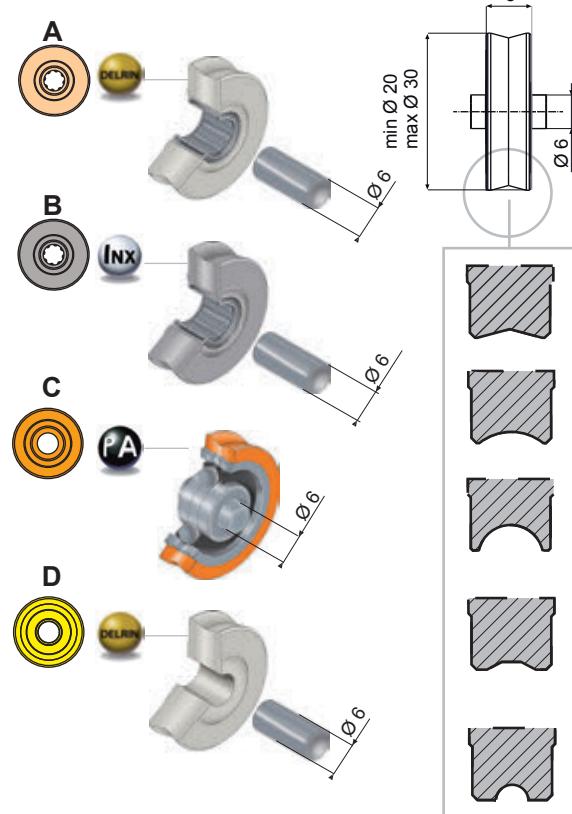

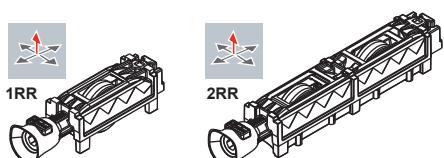

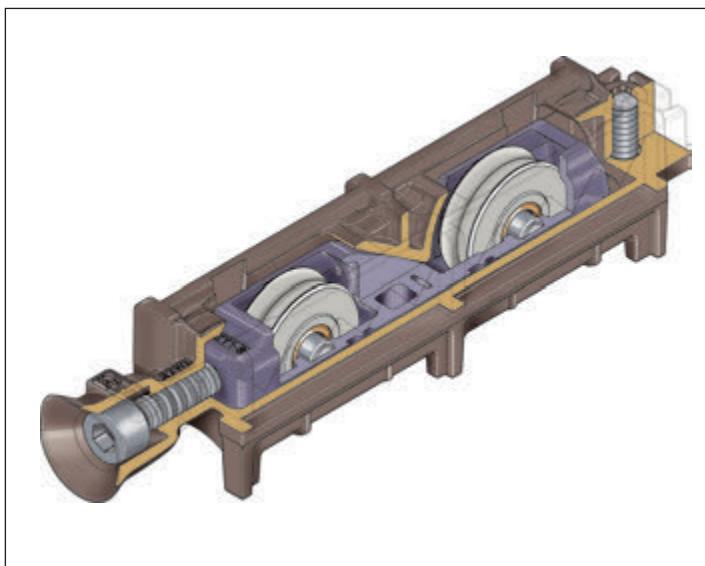

La maniglia Olè è disponibile, oltre che verniciata nei vari colori RAL anche in versione grezza e può essere assemblata successivamente senza alcuna attrezzatura particolare.

The Olè handle is available in the different RAL colors as well as in the unfinished version and it can be subsequently assembled with no need of special equipment.

La cuvette Olè est disponible, aussi bien en version laquees RAL qu'en version brut et peut être monté sans outillage spécial.

El cierre uñero Olè está disponible, además que en los lacado RAL, aun en versión basto y puede ser montado posteriormente sin ningún equipo especial.

O fecho concha Olè, é disponivel, além de acabamentos RAL, em verção sem acabamento, sendo aplicdo mais tarde sem útil especial ninhum.

Il naturale completamento della linea Olè è dato dai carrelli Hockey. Sono dotati di una cassa in poliammide per permettere il completo isolamento termico tra interno ed esterno del profilo. Sono disponibili con una o due ruote in acciaio inox, delrin o poliammide, con cuscinetti a sfere o rulli, e garantiscono elevate prestazioni in accordo con la normativa EN 13126-15:2008.

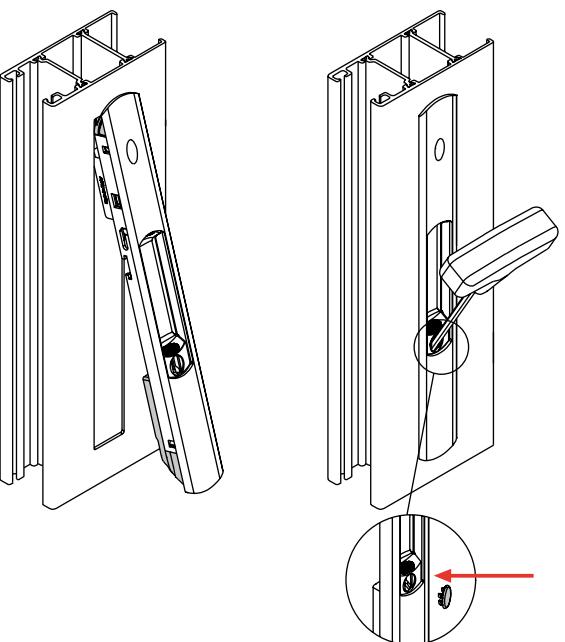

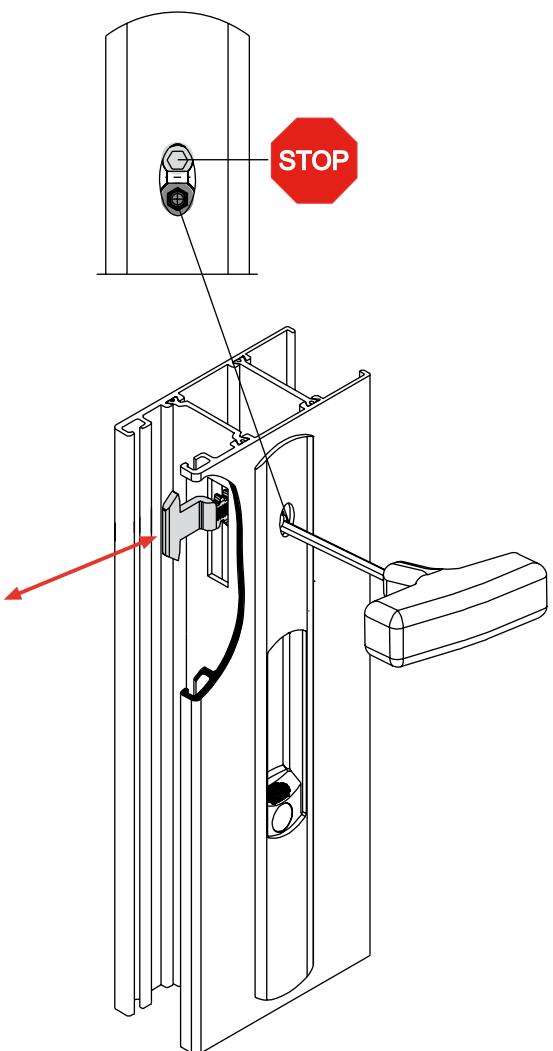

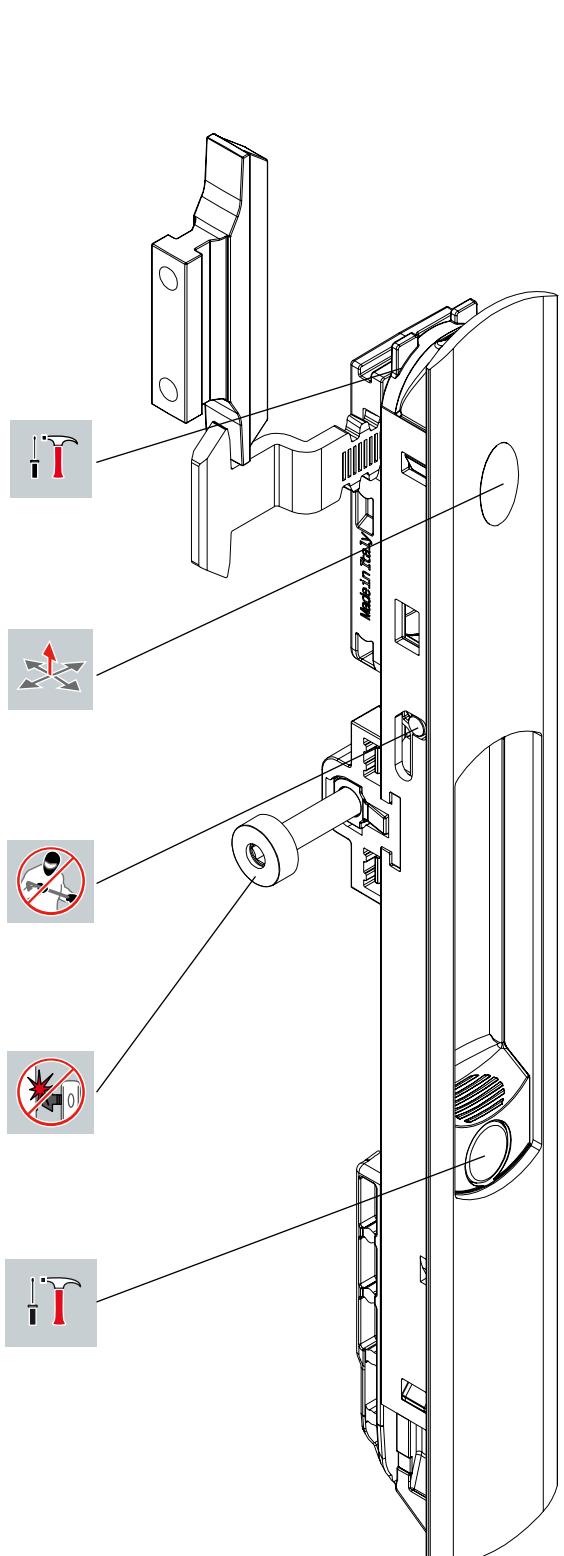

The completion of the Olè range is represented by the Hockey rollers. They are equipped with a polyamide case allowing complete thermal insulation between the inside and the outside of the profile. They are available with one or two wheels in stainless steel, delrin or nylon with ball bearings or roller bearings and do guarantee high performance in accordance with the EN 13126-15:2008 standards.

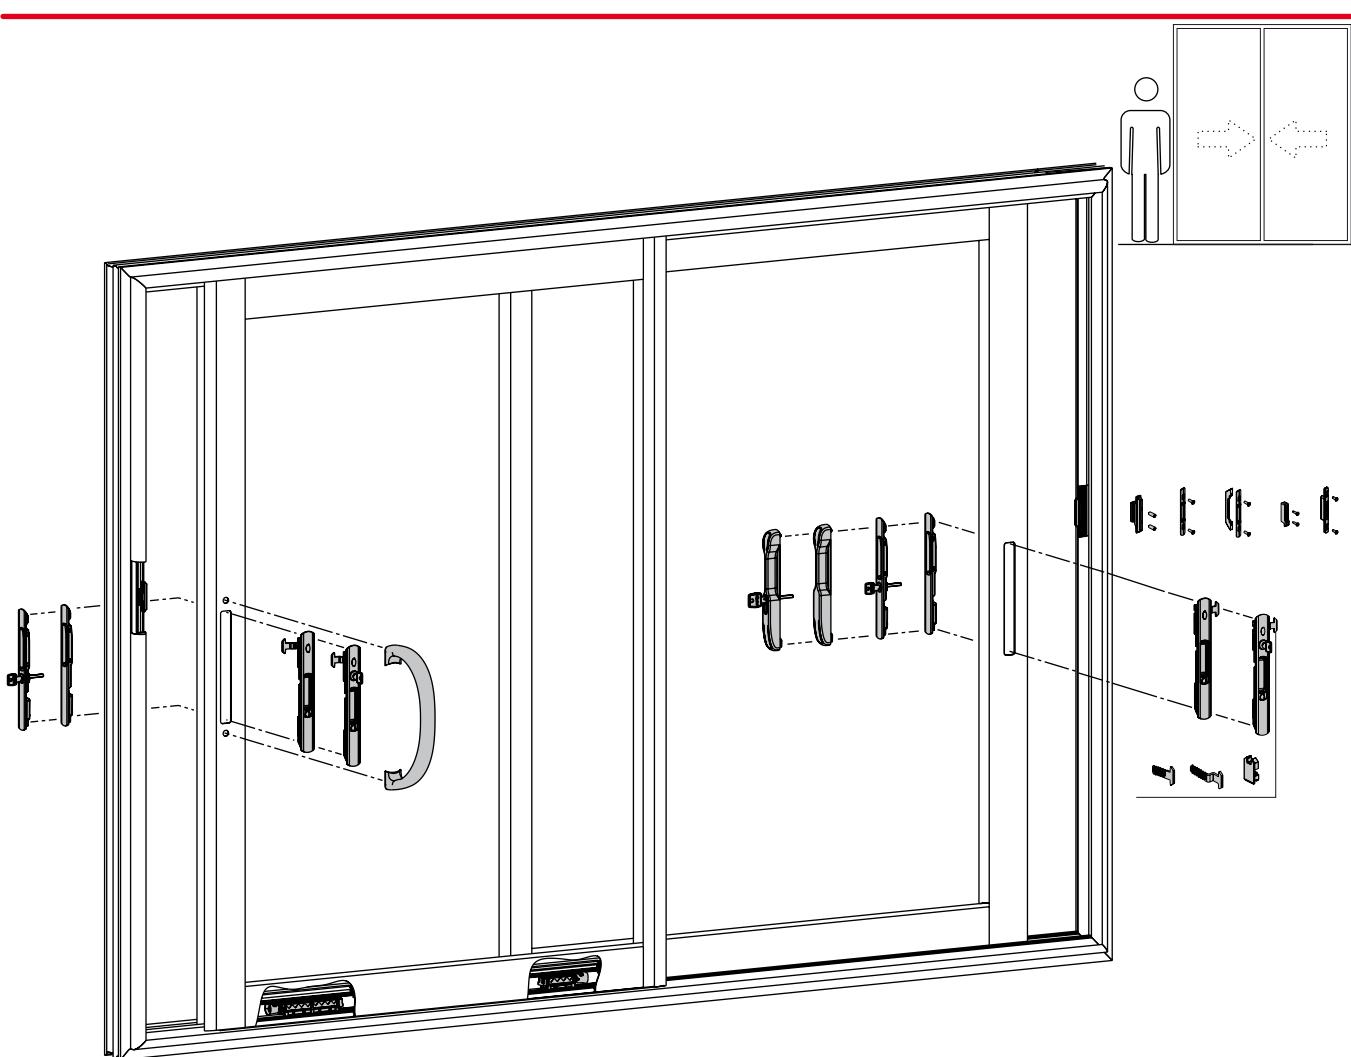

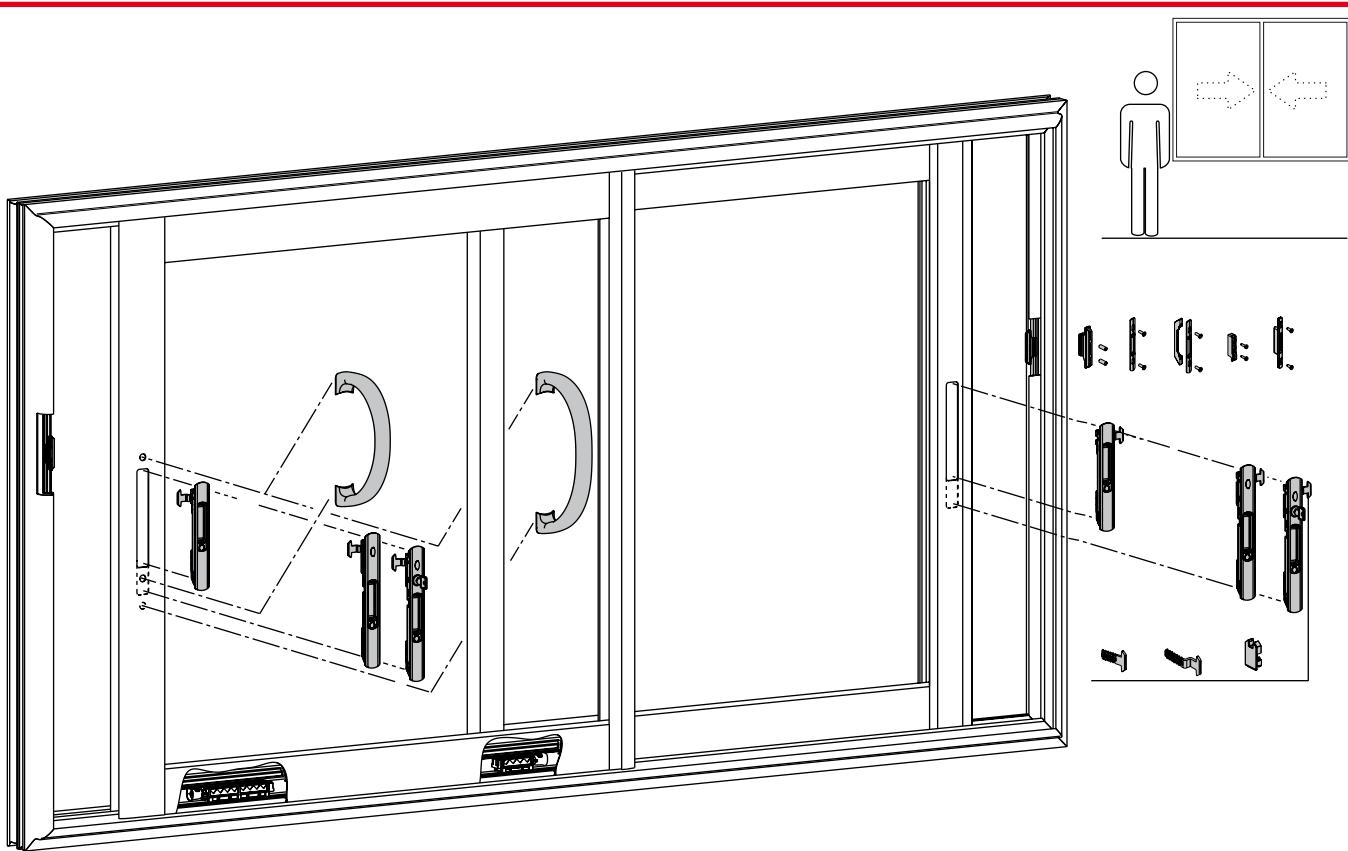

Les galettes Hockey sont le complément naturel de la ligne Olé. Ils sont faits d'une boîte en polyamide qui permet une isolation thermique complète du profil. Ils sont disponibles à une ou deux roues en acier inox, Delrin ou en nylon avec roulements à billes ou à aiguilles, et offrent une haute performance selon la norme EN 13126-15:2008.

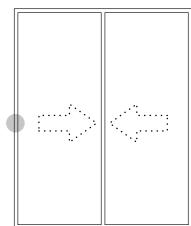

La conclusión natural de la línea Ole, son las ruedas Hockey. Tienen una caja de nylon para permitir un aislamiento térmico completo entre el interior y el exterior del perfil. Están disponibles con uno o dos ruedas en acero inoxidable, Delrin o nylon, con cojinete de bolas, de agujas o de rodillos y ofrece un alto rendimiento de acuerdo con la norma EN 13126-15:2008.

O complemento natural para a linha de Ole são as rolamentos Hockey. Eles têm uma caixa de nylon para permitir o isolamento completo entre o interior eo exterior do perfil. Eles estão disponíveis com uma ou duas rodas em aço inoxidável, Delrin ou nylon, com grupo de esferas, agulhas ou de rolos e oferece alto desempenho de acordo com a norma EN 13126-15: 2008.
