

(A)

Haftungsausschluss

Roto übernimmt für das Profilsystem des Empfängerers dieser Zeichnung keine Verantwortung. Lediglich die in dieser Zeichnung explizit gemachten Angaben wurden von Roto untersucht. Alle Angaben von Roto sind vom Empfänger kritisch zu prüfen und selbstständig zu bewerten. In der Regel sind die Angaben zu überprüfen, ist ein Musteranschlag erforderlich, dessen Durchführung dem Empfänger obliegt.

Der Empfänger entwickelt das Profilsystem eigenverantwortlich und übernimmt insbesondere die alleinige Verantwortung und Haftung für Funktionalität und Sicherheit des Profilsystems. Es ist zwingend die neueste, gültige Roto Einbauleitung zu beachten (verfügbar unter www.roto-frank.com/).

Liability exclusion

Roto accepts no responsibility for the profile system of the recipient of this drawing. Only the information explicitly mentioned in this drawing were investigated by Roto. All information sent by Roto must be checked critically by the recipient and must be assessed independently. In the rule, the data must be checked, a pattern is required, the implementation of which is the responsibility of the recipient.

The recipient develops the profile system independently and, in particular, assumes full responsibility for functionality and safety of the profile system. It is imperative to use the latest, valid Roto installation instructions (available at www.roto-frank.com/).

Liability exclusion

Roto accepts no responsibility for the profile system of the recipient of this drawing. Only the information explicitly mentioned in this drawing were investigated by Roto. All information sent by Roto must be checked critically by the recipient and must be assessed independently. To check the correctness of the information, demo assembly is required, which is the responsibility of the recipient. Roto does not accept any liability for the development and production of the profile system. Roto has sole responsibility and liability for functionality and the safety of the profile system. The latest version of the applicable Roto installation instructions must be observed (available at www.roto-frank.com).

Enhanced threshold version

Achtung kritisch!—

Borungen koennen Eckverbinder durchtrennen!
Dies macht eine eigenverantwortliche Bewertung /
Pruefung der hieraus resultierenden Konsequenzen
durch den Empfaenger der Zeichnung erforderlich.

Attention critical!
Drill holes can cut through the corner connector!
This means that the recipient of this drawing
must perform an independent evaluation
and check of the resulting consequences.
